

Chameleon Clan

Fall 2008

Dear Chameleons:

I am looking forward to working with you this Twilight Covering. The leaves dancing on the branches seem to inspire movement and we can take this inspiration to heart as we learn to loosen our shapes together.

Read the second mailing closely. Some of the items will insure a good frame of mind for sinking into the ritual of the whole weekend; warm layers of clothes, hats, scarves and gloves are essential. Bring a vegetable for the community soup, and bring it to the opening circle.

Since we are working on guising in other shapes, please bring with you a description of "your shape" as it is now; this can be a paragraph or two, or a list of adjectives. Describe both your physical shape as well as your inner (emotional) shape.

Part of our work will be guising as a tarot card, one that speaks to a "shape" we would like to reveal that lies within us, or a "shape" that we would draw towards us. I have a lot of clothing, lengths of cloth, accessories and elemental symbols, but please take some time to see if something you own (a cloak, a length of cloth, a chalice) needs to come with you, for your use or to share. Remember that we are at a camp and things that are fragile or ruined by the damp night air might need to stay at home. If you own a tarot deck that you want to use for inspiration bringing that would be great. I will be bringing a number of decks myself, for general use. A journal or a note book is always a good idea, as are an extra blanket or floor pillow for the clan space. I hope we can do some of our work outdoors, weather permitting, so an extra blanket to sit on would be useful here as well.

You will find me at our clan table (look for the one with the chameleons on it!) for most of Friday afternoon and until the opening circle. Please plan to meet at the table ½ hour before the opening circle, unless you haven't arrived yet.

Blessings,

Sue
